Relevant Experience

Lead Software Developer • **Katana Techworks Inc.** Sept 2023 – Present

Software Developer June 2022 – Sept 2023

- Build, design, and produce high-quality web apps, systems, and mobile apps for a diverse array of clients using technologies such as Nextjs, Typescript, Node, WordPress, ASP, and more.
- Lead the development and architecture of software solutions like precision medicine platforms, REST APIs, Windows services, to fulfill business requirements.
- Work alongside project managers, designers, and other developers to transform creative concepts into refined software solutions at a weekly sprint cadence.
- Provided leadership within the team through close collaborations, offering solutions and tools like docker to improve developer experience, including creating documentation for best practices, establishing a standard accessibility checklist, and facilitating knowledge-sharing sessions.
- Continuously maintained and enhanced existing applications, working closely with clients to identify areas for improvement and implementing optimizations designed to meet specific client needs, ensuring optimal performance and user experience.
- Performed unit testing and quality assurance procedures for apps and APIs using tools and frameworks like postman and vitest, ensuring they met both client-specific requirements and industry standards.
- Implemented robust security checks and updates, using the latest technologies and standards to protect applications and sensitive data.
- Supervised deployments and managed both staging and production environments to ensure the seamless integration and delivery of the product.

System Developer II • **Empire East Land Holdings Inc.** Aug 2021 – June 2022

System Developer I Feb 2020 – Aug 2021

- Developed and maintained systems and applications that are essential to business operations using PHP, Python and Javascript.
- Collaborated with other developers on projects to create new systems and websites for the organization.
- Provided support and solutions within the department by developing tools such as indexers and plugins to improve developer experience and offering mentorship.
- Built and delivered software solutions using frameworks like Codeigniter, in accordance to stakeholder business requirements.
- Developed customized reporting systems for various departments, each specifically tailored to meet the needs and requirements of the respective teams.
- Identified and resolved bugs in existing applications, and continuously improving performance and user experience by integrating latest available technologies.
- Performed quality assurance tests on various sites to ensure cross-browser compatibility and mobile responsiveness.

Intern • **Synthesis SMS.** May 2019 – Dec 2019

- Developed, maintained, and deployed code for client websites primarily using HTML, CSS, Sass, JavaScript, and jQuery.
- Addressed and resolved tickets reported by both staff and customers related to software bugs and issues they've encounter from using the VOIP call application.
- Gained knowledge in managing databases, organizing data effectively, and run complex queries within a controlled environment.

Skills

Programming Languages

JavaScript, Typescript, C#, C++, PHP, Python

Libraries & Frameworks

React, Next, Node, Vue, React Native, Tailwind CSS, Net framework, ASP.net, Codeigniter

Tools & Platforms

Git, GitHub, Docker, VS, WordPress, Figma, Google Cloud, Android Studio

Selected Projects

Greentrait App

An advanced medication management tool that gives doctor real time interpretation and analysis using precise medication algorithm.

Musesquare.com

A website designed to manage art galleries and exhibit rentals. This platform gives user the ability to browse and book venues for art shows, exhibitions, and other events across Paris.

Empire East

The official homepage of Empire East Land Holdings Inc.

Education

Rizal Technological University

Aug 2014 – Dec 2019

Bachelor of Science in Information & Communication Technology

Interests

Machination, Artificial Intelligence, Riding, Traveling, Hiking, Photography, Anime, Digital games, Guns
